## Awesome Rattle

The Awesome Rattle produces a tight-wiggling action that sends out a continuous loud signal that fish can't ignore. Rattle are great searching lures that are designed for long casts and can be retrieved at any depth. SizeL 2-3/4", 3/8ounce with every cast.

# Ultra Gear®

**Floating**

## Belly Crank

**Belly Crank**  
95mm 20g

Belly Crank can dive fast and stay in the strike zone longer than any other crankbait on the market.

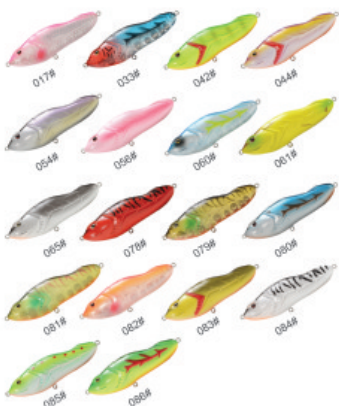

**Floating**

## Big Boy

**Big Boy**  
99mm 30.5g

This lure is created to catch all species of freshwater predator fish. The model is in length and shape an imitation of much predator preys. You can see it imitates small fish but also a frog or small rat. This make the lure attractive. His nervous and fast moving action in combination with rattles makes it a fabulous catcher. It is a shallow runner, easy to fish and because his unique design, unique to you. A new episode of lures, created to make different looks, actions with a result of more and bigger fish landed.

# Ultra Gear®

**Sinking**

## Fluo Glider

**Fluo Glider**  
140mm 48.5g

This gliding jerkbait is unique in design. The size is doing his job in all type of waters. Pike, perch, bass, walleye, asp and even catfish will be triggered because of his action. The shape of the head can be seen as a fish or rat. The rattle creates even more attraction. For the fishermen the fluo color on the end of the back makes that the lure is visible under water. Even when the distance is far or the water is dark. This makes that this lures is perfect to control. The fishermen can do with lure what he wants. New style, new designs and new control. A catcher pur sang.

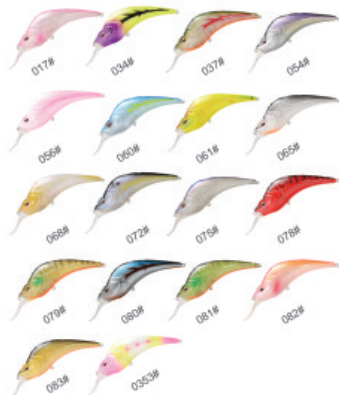

**Giant Dragon**  
210mm 58g

**Floating**

## Giant Dragon

This is a fantastic lure for trolling and saltwater fishing. Its strong and durable wires inside the body and very tough enough Lexan Integrated long lip make it be a predator of Sea Monster, such Wahoo, Tuna and Sea Trout.

# Ultra Gear®

**Floating**

**Max Dragon**  
195mm 68g

## Max Dragon

You can see the aerodynamics of this model. From top till end the water flows with less resistance against the lure. This makes it can easy to fish model. It can be used thru trolling and catching, The slimmer tail creates more space to be sure the predator can attack the lure easy. His mouth can get over the lure without any problem and hooked it will be. Can be used in fresh and saltwater. The lip creates a perfect, super attractive action. Big fish will hit it hard.

**Vibration**

**Mini Max**  
80mm 18g

## Mini Max

"Mad Max series of Vibration lure is a perfect lure with frequent movement to draw the attention of some predator fish. The rattles put inside the lure with it little loudly to attract the fish and its balance and stable action become the favourite of fisherman in their tackle boxes. The target fish is Bass, Pike and Zander. The two positions of rings on the top of Mad Max make fisherman to have a choice to control the action and diving depth of lure."

# Ultra Gear®

**Floating**

**Big Jim**  
160mm 45g

## Big Jim

Big Jim is a perfect wobbler for predator fishing. It has wobbler and swimbait versions. For the wobbler version, it will swim side to side in S shape and draw the attention of some predator fish, such as pike and muskie. For the swimbait version, it has multi joint design and its swimming action is like a snake and seems very natural.

**Big Jim Jointed**  
200mm 80g

**Floating**

## Big Jim Jointed

For the swimbait version, it has multi joint design and its swimming action is like a snake and seems very natural.

# Ultra Gear®

**Husky Swimbait**  
125mm 65g

## Husky Swimbait **Slow Sinking**

"Husky Swimbait is a big bait of middle / large dimension. The fin increase the swim stability and the silicon tail gives to the lures a very wiggly action. All these features merged with the exciting details and extremely real-like colors make the Husky an irresistible big bait for bass."

**Floating**

**Jimmy**  
120mm 25g

## Jimmy

Jimmy is an excellent lures for catching pike, walleyes and bass. When fisherman retrieve the lures, it will make the lures have little bit "S" side to side action. Its lip cause certain water resistance to make more amazing action.

# Ultra Gear®

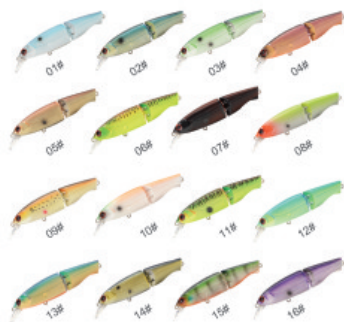

**Floating**

**Bullet**  
75mm 8.5g

## Bullet

Bullet is ideal to front also the most extreme fishing conditions. Thank to its inner balancing weights system, the Bullet can be cast to long distance, and its particular oscillating action makes this lures very catching fish during the fall to the bottom.

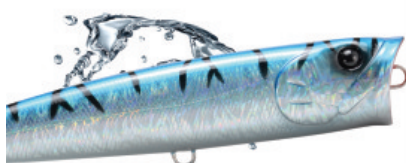

**Sinking**

**Chamelon**  
110mm 19g

## Chamelon

is an innovative lure that is completely new to the fishing world. The Sashimi colors schemes actually change on these lures. Many bait fish and game fish change colors to blend into their environments or to alert other fish that they feeding or are in distress. These new highly detailed lures mimic that color changing behavior. The front and rear view change colors from each direction when viewed by the fish. This triggers curiosity and aggressive reaction strike from fish.

# Ultra Gear®

**Popper**

**Crystal Mouth Popper**  
140mm 35g

## Crystal Mouth Popper

The lure sits tall down in the water with its board flat face poised right on the water line. This makes it splash and split like a popper or you can simply use it like a popper, not walking it at all, just popping it like a popper. Its two lures in one, you can walk it and popp it.

**Floating**

## Deep Crank

**Deep Crank**  
115mm 25g

The Deep Crank is floating, rattling divers, designed to run to a designated depth deeper than most crankbaits. The 20- was the first to break the elusive 20-foot mark and is a favorite of bass tournament anglers, while the 30+ is the deepest diver in its class.

# Ultra Gear®

**Floating**

**Thunder Crank**  
85mm 10.5g

## Thunder Crank

This is a long casting, deep diving crankbait build for catching monster bass, it delivers a big profile, an effective wobble that pushes a lot of water, and also generates excellent deflections.

**Thunder Max**  
100mm 14.5g

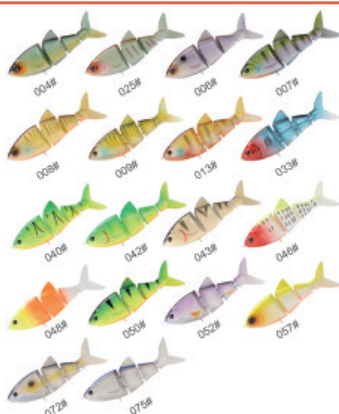

**Sinking**

## Thunder Max

This deep diver features a new lip design that rockets it toward the bottom. Stop-and-go for bite-enticing suspending on stall, or slow-wind for classic wounded-minnow action.

# Ultra Gear®

**Floating**

**Fat Boy**

**Fat Boy  
70mm 16g**

This is an excellent crank bait for shallow water and it can avoid any weeds during its side to side topwater action in the water.

**Sinking**

**Flexi Boy**

**Flexi Boy  
125mm 35g**

Flexi Boy is the most realistic swimbait on the market today. The Flexi Boy will be available in a floating, a slow sinking and a fast sinking swimbait. The Flexi Boy has the best action, best colors, and best quality of any other swimbait on the market today.

# Ultra Gear®

**Floating**

**Fat Willy**

**Fat Willy  
50mm 13g**

Fat Willy is a very amazing crankbait with obvious side to side action in the water. The proper placement of rattles inside the lures make it more dynamic in the water and its rattles are silent into the body. This is a very good snacks for some predator fish, such snake heads and big mouth bass.

**Floating**

**Fat Willy**

**Fat Willy  
35mm 5g**

Fat Willy is a very amazing crankbait with obvious side to side action in the water. The proper placement of rattles inside the lures make it more dynamic in the water and its rattles are silent into the body. This is a very good snacks for some predator fish, such snake heads and big mouth bass.

# Ultra Gear®

## Jumpy

**Jumpy**  
75mm 13g

**Floating**

Jumpy is an excellent diving minnow and this is a good bait for catching bass and zander. When fisherman retrieve the lure, it will start to dive and have obvious side to side frequent action. The good finishing and the Japanese quality BKK hooks make this lure be one of the best lure for bass fishing.

**Floating**

**Mad Vibration**  
75mm 14g

## Mad Vibration

The large lipless crankbait presents heavy weight fish with an opportunity to make the most of their feeding efforts. Burn one knock over grass flats, slow roll it or yo-yo the lure off the bottom. Quickly you will see why the one knock's acoustic performance and vibration cannot be matched. The single large weight presents a new sound of fish with a rhythmic knock instead of multiple bbs rattling. The one knock's tungsten-lead rattle will make a difference to highly pressured fish.

# Ultra Gear®

## Mad Max

**Mad Max**  
120mm 52g

**Vibration**

"Mad Max series of Vibration lure is a perfect lure with frequent movement to draw the attention of some predator fish. The rattles put inside the lure with it little loudly to attract the fish and its balance and stable action become the favourite of fisherman in their tackle boxes. The target fish is Bass, Pike and Zander. The two positions of rings on the top of Mad Max make fisherman to have a choice to control the action and diving dept of lure."

**Vibration**

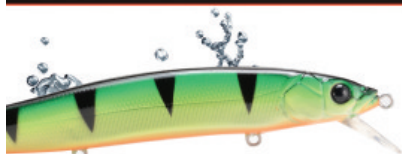

**Mad Max Jointed**  
135mm 59g

## Mad Max Jointed

"Mad Max series of Vibration lure is a perfect lure with frequent movement to draw the attention of some predator fish. The rattles put inside the lure with it little loudly to attract the fish and its balance and stable action become the favourite of fisherman in their tackle boxes. The target fish is Bass, Pike and Zander. The two positions of rings on the top of Mad Max make fisherman to have a choice to control the action and diving dept of lure."

# Ultra Gear®

**Snake Head**  
140mm 17.5g

## Snake Head

**Sinking**

If you wanted to get it down to 7-1/2 feet, simply count it down to the targeted depth, and then start working the lure. With barely noticeable movements of the rod tip, you can get the Magnum to move subtly like a weakened baitfish in the water. Or with strong pulls or rips of your rod, you can get the Magnum to snap back and forth with the large darting action you've come to expect. The beauty of this setup lies in the fact that once you reach your target depth, you can walk the lure any way you want-fast or slow, and it stay at the target depth.

**Floating**

**Square Crank**  
70mm 12g

## Square Crank

A Bass sees the Ultra Gear Rattling Square Crankbait with its chunky profile as one its favorite treats. This versatile crankbait dives to an ideal depth of 3' to 6'. Armed with square lip that prevents most snags, the KVD rattling Square bill is most effective when bumped off cover, attracting the attention of any hungry predators in the vicinity.

# Ultra Gear®

**Striker Minnow**  
140mm 36g

## Striker Minnow

**Floating**

This is a professional minnow used for the saltwater or fresh water fishing. It has a very good wobbler action with shiny body design, which can be regarded as the snack of some big predators.

**Floating**

## Thunder Boy

**Thunder Boy**  
90mm 8.5g

This is a perfect minnow with sliding action in the water. The design of swivels on the belly and tail can cause it catch the fish closely with rotation of swivels.

**Shark Fin Swim Bait**  
100mm 15g

**Floating**

## Shark Fin Swim Bait

The Shark Fin Swim Bait is not just a joint plug but a super swing bait with outstanding ability. It plays an active role as an swing crankbait which bears down at very shallow area while retrieving straight. Unlike different joint plug which has wobbling action. Shark Fin "High Pitch Swing" with rolling brings out vibration impact.

**Slim Boy**  
110mm 15g

**Floating / Topwater**

## Slim Boy

"Slim Boy is a real top water lure for weedy or very shallow waters. These floating lures rise with every spin fast to the surface, so hooking weeds is not a real problem anymore"

# Ultra Gear®

**Pro Minnow**  
125mm 15g

## Pro Minnow **Floating**

Pro Minnow 125mm/15g Long casting salt pro minnow baits produce an erratic, side to side swimming action that's proven to trigger strikes from predatory fish. A fast, ripping style retrieve gives that senticing atction, while the realistic scale pattern finish and 3D eyes createan ultra realistic bait fish target. Internal weight transfer system helps that fly further ensuing anglers can cover more water per cast. Complete with heavy-duty.

**Gliding**

**S Curve Joint Hunter**  
195mm 64g

## S Curve Joint Hunter

This is the same family lure of Obese Joint Hunter. This is a perfect swim-bait with S Curve swimming action. The angle of S Curve is more obvious than Obese Jjoint Hunter. This is a good lure for Pike, Muskie, Big Mouth Bass and other predators.

# Ultra Gear®

**Obese Joint Hunter**  
140mm 55g

**Sinking / Gliding**

## Obese Joint Hunter

Obese Joint Hunter is the latest joint swimbait of Top Infinite. It can be used for either fresh or saltwater fishing and its soft plastic tail can be replaced to multiple colors. Its swimming action is like a live fish swimming in the water. Its special 3D eyes is another unique feature of this swim-bait.

**Popper**

## Pop Diver

**Pop Diver**  
95mm 18g

Pop Diver is a special topwater. The lower line eye enables the lure to produce the walk the dog action and with its concave nose it can also serve as an oversized popper for varying your retrieve. The upper line eye is responsible for producing the diving action of a jerkbait, allowing the lure to flash and bulge just below the surface.

# Ultra Gear®

**Sinking**

**Multi Joint Minnow**  
200mm 64g

## Multi Joint Minnow

This is an innovative and unique multi joint minnow in the world. Even fisherman slightly retrieve the lure, it can swim like a life fish in the water. The multi joint structure is like a fish bone and make it have a perfect swimming action in the water.

**Floating**

## Musky Shad

**Musky Shad**  
155mm 38g

This lure is proven in both freshwater and saltwater applications. The Musky Shad dives 6 to 12 feet on the cast and up to 20 feet while trolling, Musky Shad dives 6 to 15 feet on a cast and up to 30 feet when trolled. The integrally molded dive lip is designed to hold up to continuous contact with rocky bottoms and the durable plastic ribbed construction holds up and allows it to be trolled at high speeds.

# Ultra Gear®

**Triple Joint Predator**  
135mm 33g

**Floating / Topwater**

## Triple Joint Predator

This 3 section jointed swimbait with a lifelike swimbait fishing action and high quality reflective finish with a slight ghost transparency. This large hardbait swimbait for attracting some monster bass and walleye. Realistic swimming action will entice fish to strike. Can be used as a topwater wake lure with a bassing sound if you fish it with your rod tip up.

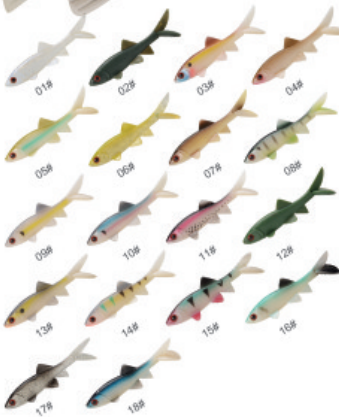

**Twist Explorer**  
90mm 14g

**Floating**

## Twist Explorer

With the introduction of the Twist Explorer, prop baits have now reached a new level of performance. Top Infinite has put ball bearing double blades on it which delivers smooth, rapid propeller rotation while reducing friction. The Twist Explorer blades create more water disturbance with less effort making each twitch of this lure a dinner bell for fish, with combination of Top Infinite like colors and the appealing Twist tail action, this bait is a fish catching machine.

# Ultra Gear®

**Little Mouse**  
75/100/125mm  
4/8 /18g

**Floating**

## Kick Tail Swimmbait

"The featuring anatomically correct fins and a profile designed to mimic any number of forage fish, the soft, full bodied Kick Tail Swimmbait has an incredibly lifelike swimming action at both fast and slow retrieves thanks to its unique tail design. Rig it weedless on a weighted or unweighted EWG hook, on a jig head, or even on an umbrella rig"

**Alien Swimmbait**  
50/75/100/125mm  
1/4/ 8/16g

**Floating**

## Alien Swimmbait

"The Berkley Powerbait Ripple Shad features a sleek profile complete with extremely life-like details, including 3D eyes and compelling coloring. The ribs or ripples extending all the way to the bait's tail set it apart from other similar baits on the market, creating additional water disturbance and vibration. The paddle tail still imparts its characteristic vibration and the classic swimming motion of a swimmbait"

# Ultra Gear®

**Northern Pike Swimbait**  
150mm 200g

**Slow Sinking**

## Northern Pike Swimbait

Northern Pike Swimbait is a realistic pike swimbait made of high quality of PVC materials with Japanese high quality of jig hook and treble hook. It has 3 sizes in 6", 8" and 10" with sinking action in the water.

**Live Trout Swimbait**  
150 / 200 / 250mm  
84/146/356g

**Sinking**

## Live Trout Swimbait

"The Live Trout Swimbait is the most realistic trout imitation swimbait on the market today. Combining uncanny realism and a subtle swimming action with the correct movement and wobble, the Live Trout Swimbait"

# Ultra Gear®

**Mad Minnow**  
150 / 250mm 32/150g

**Slow Sinking**

## Mad Minnow

The Mad Minnow features a segmented body with kicking tail for the ultimate in realistic underwater movement. The polycarbonate lip causes the bait to dive and enhances the baits tantalizing motion. Holographic wildeye drives fish nuts. Durable, soft-plastic body.

**Mad Swimmer**  
10mm 28g

**Slow Sinking**

## Mad Swimmer

Fool the fish with this ultralifelike swimbait that features a natural profile and realistic action thanks to the multisegmented body and holographic insert. Soft PVC material encourages fish to hold on, yet retains its shape and durability with a reinforcing mesh and hard inner core. 3-D holographic eye provokes violent strikes.

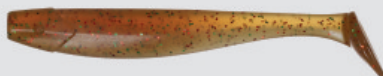

# Ultra Gear®

## V Tail Jerk

**V Tail Jerk**  
100mm 5.5g

Featuring a soft yet durable plastic construction, the Long Tail Jerk swoops and glides beautifully with or without any weight added. Its thick mid-section, protruding dorsal fin, and thin straight tail cause it very wildly from side to side when twitched, and each bait is hand painted for maximum realism. Fish it on light line, and let the line go slack on the pause between twitches. That's when most of the strikes occur. Also experiment with different retrieves. Available in some great fish-cating colors, the Long Tail Jerk soft jerk-baits deliver the action and fish attraction that big bass can't resist.

**Hammer Tail**  
75/100mm 2.8/6.5g

## Hammer Tail

Big Hammer SwimBait Tails are top quality plastic swim-baits that incorporate clear colors, tough plastic, and the exclusive Big Hammer square tail that really kicks in the water. These great colors are proven fish catchers all over the world and can be counted on to catch fish in your favorite bass pond. Use different weight heads to swim the bait deep or shallow and different sized hooks in the heads will allow use in various body sizes. If you've heard of Big Hammer, you know their reputation for toughness. They are able to stand up to big, hard fighting fish, and their unique action attracts fish and keeps them coming all the way to the hookup. Use with Hammer Head Jig Heads

# Ultra Gear®

## Spring Worm

**Spring Worm**  
62.5/75mm 3/6g

"Measuring in at 2.5 and 3.5-inches in length, the Spring Worm SwimBait provides a hard-thumping action and an ambiguous baitfish profile that works well with a number of different techniques. Built with a tapered body, the Spring Worm SwimBait features a ribbing that helps displace water and create an overall more noticeable presence. At the backside, the Bass Assassin Boss Shiner SwimBait is fitted with a large paddle tail that creates a tremendous action at any retrieve speed. For increased performance around weeds and other snaggy environments, the Bass Assassin Boss Shiner SwimBait incorporates shallow hook pockets on the top and bottom to help keep the hook point concealed until bass bite. Whether it's fished on a weighted swimbait hook, A-rig, or spinnerbait, the Bass Assassin Boss Shiner SwimBait will definitely let bass know who's boss."

## Awesome Tail

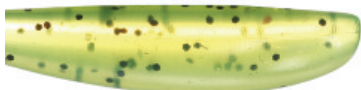

**Awesome Tail**  
100mm 5g

"The Awesome Tail Swimming Jerk Minnow features the body style and profile of the original Jerk Minnow - now with a paddle tail for an incredible kicking action. Constructed from a super soft plastic for easy swimming, rig the Swimming Jerk Minnow on a darter head jig, weighted swimbait hook or umbrella rig. An excellent choice for schooling bass or as a search tool when you are trying to locate fish, the Awesome Tail Swimming Jerk Minnow is available in a variety of colors to match the forage in your local waters."

# Ultra Gear®

**Straight Tail**  
50/75mm 1/3.6g

## Straight Tail

The StraightTail is a 2" and 3" features a slotted body a long slender tail with a the action from a hand poured worm but the profile of a jerk/worm bait. It is possibly the most versatile bait on the market

## Grub Tail

**Flexi Tail**  
50mm 1g

"Grub delivers the perfect blend of wild-fluttering action and bolstered construction. Designed with a specially shaped curly tail, the Ultra Gear's Grub offers a rapid waving action that excels on the back of a swim jig, vibrating jig, and spinnerbait. The Mann's Hardnose Grub features a rigid front portion that anchors the bait in-place, minimizing slipping and tearing. Poured using the ideal amount of salt and scent, the Ultra Gear's Grub provides increased temptation that goes well beyond just action. Offered in a number of proven colors, the Grub delivers attraction and performance that is a cut-above run-of-the-mill soft plastics."

# Ultra Gear®

**Flexi Tail**  
50mm 1.2g

## Flexi Tail

"Easy prey in the clear water of the Great Lakes, bass are feasting on goby like they're going out of style - and growing bigger looks just like the real thing when fished on a drop shot, jighead or Carolina-rig."

**Flexi Tail V2**  
50mm 1g

## Flexi Tail V2

"This soft bait is made with a very good action tail and it make the lure look like a live small fish in the water."

# Ultra Gear®

**Magic Crawfish**  
100mm 1g

## Magic Crawfish

"Built with a number of bite-inducing features, the Crock-O-Gator Ring Craw offers a tasty craw imitation that will excel with a number of different techniques. Whether you're throwing it behind a jig, on a Texas-rig, or Carolina-rig, the Craw's unique, ringed shape creates an added vibration that grabs bass' attention. Infused with the perfect mixture of salt and scent, the Craw provides an added attraction that is sure to keep your net man or woman busy. Also, when you apply your own scenting, the segmented shape of the body acts as a scent chamber and helps to slowly disperse flavor. Available in a number of classic bass colors, the Craw delivers a lifelike craw imitation that is as effective as it is versatile. "

**Magic Crawfish V2**  
50mm 2.5g

## Magic Crawfish V2

"The Ultra Gear Craw offers anglers a highly effective alternative to standard swimming craws. The Ultra Gear Craw has a subtle action that works even when fishing conditions are tough. Offered in a number of proven-colors, the Craw is a threat to bass any time it's in the water. "

# Ultra Gear®

**Topwater**

## Angry Frog

**Angry Frog**  
40mm 7.8g

"The Angry Frog features 4/0 frog hook and its soft body and hook placement gives this frog one of the deepest hook gaps of any frog in market!"

**Frog Hunter**  
55mm 8.5g

## Frog Hunter

**Topwater**

"The Frog Hunter soft plastic is just the right consistency to ensure solid, consistent hook-ups, while remaining weed-less as it navigates over matted vegetation. Its "bass boat" belly also allows it to easily walk-the-dog in open water, and it even features a drain hole to expel water and keep it running perfectly. "

# Ultra Gear®

**Little Mouse**  
55mm 10.5g

## Little Mouse **Topwater**

"This is a simple style of frog bait made like a mouse. Its round shaped body makes it stay in the steadily and its soft and enough collapsibility makes bass easily got hooked."

**Topwater**

## Live Frog

**Live Frog**  
55mm 11.5g

"Live Frog is a realistic colored frog bait with a sharp and high quality of frog hooks. Its soft PVC plastic makes it more familiar for fisherman to press water from the frog bodies and very good for retrieve in swamp areas."

# Ultra Gear®

**Live Frog V2**  
57mm 13g

## Live Frog V2

**Topwater**

"Live Frog V2 is a second version of Live Frog with skirt at the tail. It causes an effect, just like a leg moving in the water. This frog bait is still suitable for catching bass, even snake head in the shallow water and swamp areas."

**Live Mouse**  
65mm 11.5g

## Live Mouse

**Topwater**

"Mice are native to most areas of North America, and can often be found foraging for food along shorelines and on floating vegetation - putting them in constant contact with hungry, opportunistic bass. Offering the perfect mouse imitation, the Live Mouse Hollow Body Field Mouse features intricate, life-like detailing so realistic you'd swear it was alive. Perfect for twitching along the tops of pads and grassmats, it is extremely weedless, super soft for excellent collapsibility, and equipped with a razor sharp frog hook."

# Ultra Gear®

**Mouse Runner**  
45mm 7g

## Mouse Runner Topwater

"This is another version of Live Mouse in babysize. This is the same purpose that this kind of mouse will have activities in the coastal area closed to bass."

**Magic Ball**  
63mm 14g

## Magic Ball Topwater

"The Magic ball is sized like a ball and the whole body is durable and easily collapsed for pressing out water and change the frog hook. The fish will be got hooked easily and the angle between the sharp point and the body is perfect."

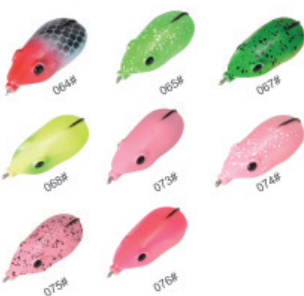

# Ultra Gear®

**Little Mouse**  
55mm 10.5g

## Little Mouse Topwater

"This is a high quality of frog bait with very sharp single frog hook on the tail. This frog bait is very good for catching snake head in shallow water and the soft body makes fish got hooked easily."

**Monster Frog**  
45mm 6.5g

## Monster Frog Topwater

"Monster Frog is one the most realistic frog bait in the market. It sits in the water on the pause just like a real frog tempting bass from below. The hollow body is extremely soft, providing excellent collapsibility, and easily exposing the bait's super sharp wide-gap frog hook."

# Ultra Gear®

**Bloody Sunfish**  
90mm 17.7g

**Topwater**

## Bloody Sunfish

"This Sunfish designed like an injured sunfish to swim in the water to attract big mouth bass. This bait is built to collapse around the custom Trokar double hook, the Bloody Sunfish Hollow Body provides rock-solid hook sets and an awesome strike-to-catch ratio. Available in a number of dead-on panfish colors, the Bloody Sunfish Hollow Body provides all of the attributes that are necessary to succeed around heavy cover and big fish. "

**Topwater**

**Alien Frog**  
50mm 10.8g

## Alien Frog

"It still makes quite an impact when it comes to catching bass. This realistic looking and feeling amphibian comes equipped with an internal stainless rattle to call additional attention, and its precisely designed body allows it to slide "

# Ultra Gear®

**Frog Fighter**  
70mm 15g

**Topwater**

## Frog Fighter

"There's nothing like fishing the weeds and slop, and nothing like the surprise and violence of a big bass crashing through the thick stuff to eat your frog. The Ultra Gear's soft plastic is just the right consistency to ensure solid, consistent hook-ups, while remaining weedless as it navigates over matted vegetation. Its "bass boat" belly also allows it to easily walk-the-dog in open water, and it even features a drain hole to expel water and keep it running perfectly. "

**Topwater**

**Frog Pop**  
64mm 14g

## Frog Pop

"This is a good popping frog for catching bass or snake head at the shallow water areas with its perfect collapsibility and sharp frog hook."

# Ultra Gear®

**Frog Predator**  
55mm 13g

**Topwater**

## Frog Predator

"This is a perfect good shaped frog bait with high quality of frog hook and rubber skirts to attract predator fish in the shallow water."

**Topwater**

## Frog Runner

**Frog Runner**  
50mm 10g

This is a perfect frog bait with high quality of frog hook for the shallow water. This single hook fits for the frog hollow body is perfect for catching fish and the body is collapsed easily.

# Ultra Gear®

**Topwater**

## Obese Frog

**Obese Frog**  
50mm 9.5g

"Designed with a special 'bass boat' belly, the Obese Frog produces a tantalizing side-to-side action that turns bass' attention towards the surface. In addition, the Obese Frog is accented at the rear with twin ponytails to give it a livelier, flowing presentation. Upon attack, the Obese Frog quickly collapses to expose its razor-sharp double frog hooks for clean, unhindered hook sets. Offered in a number of anatomically accurate frog patterns, the Obese Frog will fool the wariest bass into biting with a look and action that is second-to-none."

**Topwater**

## Storm Frog

**Storm Frog**  
52mm 12.5g

"This is popping frog with very good topwater function in the water to draw the attention of predators, such as bass and snake head."

# Ultra Gear®

**Topwater**

## Swamp Frog

**Swamp Frog  
50mm 8g**

"Swamp Frog is excellent to be used in swamp areas to avoid weeds and its perfect collapsibility makes fish got hooked easily. Its single frog hook is tailored made for this frog bait."

**Thunder Frog  
60mm 13.5g**

## Thunder Frog

**Topwater**

"This frog bait is suitable for fishing from the shallow water area to the swamp areas. Its slim shape makes it to be more steady in the water and with very good angle in the water to attract predators."
